1. [redacted] Comment. The volume of food ration supply dispatched to Soviet installations by Unit [redacted] in Leipzig-Mutritzsch did not change compared with that of the preceding months. The names of the supply officers of the receiving units are known, except for three. 25X1

2. [redacted] Comment. The report indicates that the volume of ration supply, especially of flour, shipped to Soviet ration supply depots from Wurzen has considerably decreased compared with the volume of deliveries in 1953. In some instances, supply deliveries came down to 30 percent of the 1953 deliveries. The reason for this decrease is the food crisis in the GDR.
